

New Joomla Template jc_sports released

We've just let this one out of the workshop - Joomlaers - we give you our latest joomla template creation - jc_sports!

Our latest and great commercial joomla template has been put through it's paces by our testing team over the weekend and is now ready for you to play with!

jc_sports is a compact and professional grade joomla template that works equally well with all joomla sites and not just the sporty ones! This template is all about keeping things simple - and doing the simple things well. jc_sports is a lightweight standards compliant joomla template that's no nonsense and doesn't have a too many design features meaning you can apply this joomla template to your site with minimal customisation.

Take jc_sports for a spin over at the jc_sports demo site .

The wonderful extended menu is back this time to provide you with the best Joomla menu configuration system around.

Key Template Features include:

- 100% CSS Driven layout - look ma no tables!
 - XHTML 1.0 Transitional and CSS 2.0 Valid
 - Semantic Markup used for Search Engine Optimisation & Content First source ordering (for those who don't know or care what that means & Google loves it!)
 - Advanced integration with the Extended Menu module for great split menus
 - Flexible em based font sizing for optimal usability
 - Section 508 Valid & Good for accessibility
 - Joomla 1.0+ compatible, Mambo 4.5.2/4.5.3 compatible. Joomla 1.5 coming soon!
 - Plenty of custom module positions
 - Easily tweaked colour scheme
- Works great on the iPhone and iPod Touch!
 - Easy to follow customisation and setup guide

For a short time, we're releasing jc_sports for the special launch price of \$14.95 (normal price is \$29.95).
